## **Evaluation Approach Action Plan**

**Program Name:** Screening and Assessment in Primary Care Settings (Screening and Referral Services)

**Evaluation question:** To what degree did services improve early detection and treatment?

**Short-term outcome (indicator):** Increased identification and linkages to services; increased service utilization

<b>Evaluation Component</b>	Evaluation Activities and Resource Needs
WHY?	
<b>Potential data usage</b> (e.g., performance monitoring, program quality improvement, grantee reports)	
WHAT?	
<b>Potential data source(s)</b> (e.g., records extract, event tracking survey, interview, standardized assessment)	
Potential measure or tool (e.g., standard tool or customized/developed tool)	
WHO?	
<b>Data respondents</b> (e.g., all or sample of program participants, family members, program staff)	
HOW?	
<b>Data collection method</b> (e.g., trained administrators and data collectors, service providers, program administrators)	
WHEN?	
<b>Data collection interval(s)</b> (e.g., single point at closure, pre/post at entry and closure, repeated measures at intervals)	
Data submission/management (e.g., secure data transfer, quality monitoring, submission timeline)	
SO WHAT?	
<b>Data analysis methods</b> (e.g., quantitative and/or qualitative data summary methods, comparisons to benchmarks)
