7. PRESENTATIONS

7.A. Training, Technical Assistance and Capacity Building.

Presentation by Bill Carter of CiMH regarding the Training, Technical Assistance and Capacity Building. Context that there are five statewide TA components CiMH would like to work with the member counties to develop a plan for statewide, regional, and local implementation of Training, TA and Capacity Building. The plan would start with the counties approved PEI plans. CiMH was looking for permission from board to move forward with developing a proposal for consideration by CMHSA. Denise Hunt comments that she may have a conflict regarding also being a member of the board on CiMH as well as Dr. Wayne Clark states same. Staff recommends the Board move forward with the planning and the proposal conflict will be addressed subsequently. Questions arise from Mike Opredek in regards to the procurement policy and whether if accepted the training is then drawn up in a contract and goes out to bid. Bill Carter states CiMH is requesting "guiding" the proposal. These issues will need to be addressed subsequently.

Questions arise in regards to how monies would go from County to JPA to the Training. It is then clarified motion is solely for preparation of the proposal, not funding etc. John recommends that the JPA allows flexibility and will not limit options. Even County's that are not in the JPA will be able to participate.

Mike Opredek motions to move forward regarding plan for the proposal by CiMH. Seconded by Denise Hunt. Motion carried unanimously.

7.B. Report on Member Outreach.

Survey done on Zoomerang shows increased interest in joining the JPA. Approximately 24 County's are looking into the JPA. Clarification about projects and not usurping the authority of the OAC and the process of approval was addressed. Another question arose in regards to JPA and elimination of the bid process. Mr. Walker with Butte County has questions regarding now that the JPA is established how does a county adding get involvement in each project and how the JPA is funded. Mike Opredek states each project will have a manager group. Every county will have involvement and not just the larger County's or the board will have final decision. The funding is split amongst the County's involved, so depending on the population size would determine your County's funding responsibility.

General consensus, by the Board referring the survey shows a high level of interest with multiple Counties'. Those County's interested are at different levels of adding, once added the funding is then spread amongst the entire JPA.

8. ADMINISTRATIVE MATTERS

8.A. Staff recommends approval signatures, and file CMHSA Joint Exercise of Power Agreement.

John Chaquica explains the Agreement can be ratified in the future once more County's join the JPA. The document is static, and each time a change is made it has to go back to each County's Board of Supervisors for approval. President, Allen indicates that the Bylaws have more flexibility and are an easier process than changes on the agreement. Denise Hunt suggests that under Appendix A, her title should be noted as Behavioral Mental Health Director.

Allen Rawland makes a motion to approve the agreement, seconded by Mike Opredek. Motion passed unanimously.

All board members present signed the JPA agreement.

8.B. CMHSA Formation and State Filings.

8.C. Review and discuss CMHSA Bylaws.

Formation committee worked through the Bylaws and staff has not made any other changes. A tally of comments have been recorded and saved by members of the Mental Health Directors Committee. The bylaws are a governing document approved by this body, with new members joining staff suggests to keep suggestions and comments, and change when membership is more static.

9.B. CMHSA Expense Budget-July 1, 2009 to Jun 30, 2010.

The governing documents required the Board to adopt an annual budget and staff presented the draft budget. President points out notation on budget that the budget will change with growth in size as JPA. Curtis Boewer presents two questions, one being when the \$5000 requirement becomes \$7500 and the second question in regards to the billing and the contract to bill with CiMH. At this time there is no contract set up with George Hills in regards to billing. Staff responds that the \$5000 will continue until financial transactions take place at which for one year no matter the size of the JPA the monthly amount would be \$7500. At the end of the year the fees will then be re-evaluated. He suggests in regards to the second question regarding billing that George Hills can bill the JPA and the members can pay the JPA. President states for members to check with

Council's to see if that will be allowed and if not billing through CiMH may be the solution at least for the months of June and July.

Dr. Wayne Clark moved to approve CMHSA expense budget. Motion seconded by Curtis Boewer. Motion passed unanimously.
