Clinical Supervision for Counties

Thousands of Supervisions Hours Delivered to Counties Around the State

CalMHSA
California Mental Health Services Authority

As county behavioral health departments face unprecedented workforce challenges, CalMHSA has partnered with a provider successful in scaling remote clinical supervision services in California. This ensures:

- Counties with licensed supervisor shortages can secure essential supervision for their clinical staff
- Counties can separate clinical supervision from administrative supervision
- Staff receive supervision that is 100% dedicated to their clinical needs
- Additional leverage for counties in their clinician recruitment and retention efforts

Beyond Supervision

Clinical supervisors connect virtually through a HIPAA-compliant platform. More than just supervision, this flexible solution offers staff:

- Improved skill sets
- Fresh perspectives and learning approaches
- Actionable suggestions to implement with clients
- Confidence in supervisors who have been trained on Medi-Cal client populations within county behavioral health
- Versatility in schedule accommodation

Hands-on Solution for Counties

- Counties purchase remote individual supervision hours for pre-licensed staff.
- A county-level portal offers a dashboard of supervision hours for each staff.
- Option to purchase triad supervision (two associates, one supervisor)
- Option to purchase group supervision

> "I like the versatility of supervision over zoom. I enjoy discussing caseload and learning from the supervisor. "
