GUIDE TO MORGAN STANLEY RESEARCH RATINGS

Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks it covers. Morgan Stanley’s ratings, Overweight, Equal-weight, Not-Rated and Underweight, are not the equivalent of Buy, Hold, and Sell, but represent recommended relative weightings. To satisfy regulatory requirements, Morgan Stanley corresponds Overweight, the most positive stock rating, with a Buy recommendation, and Equal-weight and Not-Rated, to Hold and Underweight to Sell recommendations, respectively.

In this report, the following codes correspond to the following Morgan Stanley ratings. For a complete description of Morgan Stanley’s rating system, please refer to a Morgan Stanley research or ask your Financial Advisor.

CODE / MORGAN STANLEY RATING

1 / Overweight: The stock’s total return is expected to exceed the average total return of the analyst’s industry (or industry team’s) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

2 / Equal-weight: The stock’s total return is expected to be in line with the average total return of the analyst’s industry (or industry team’s) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

2 / Not-Rated: Currently the analyst does not have adequate conviction about the stock’s total return relative to the average total return of the analyst’s industry (or industry team’s) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

3 / Underweight: The stock’s total return is expected to be below the average total return of the analyst’s industry (or industry team’s) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

(1) Group contained 2 records with No Annual Dividend. No income reported.

* Account Totals do not include Cash, Cash Equivalents and Annuities.

** Monthly projections are rounded to the nearest dollar and totaled, therefore, % yield calculations are approximate.

Estimated Annual Income (EAI) is calculated on a pre-tax basis and does not include any reduction for applicable non-US withholding taxes, if any. EAI for certain securities may include return of principal or capital gains which could overstate such estimates. For securities that have a defined maturity date within the next 12 months, EAI is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment, and does not reflect changes in its price. Accrued interest, annual income and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period.

1 We are unable to provide projected income information for this security due to insufficient/incorrect reference data and/or the security being in default.

Estimated Annual Income (EAI) is calculated on a pre-tax basis and does not include any reduction for applicable non-US withholding taxes, if any. EAI for certain securities may include return of principal or capital gains which could overstate such estimates. For securities that have a defined maturity date within the next 12 months, EAI is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment, and does not reflect changes in its price. Accrued interest, annual income and yield for structured products with a contingent income feature (such as Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period.

The above summary/prices/quotes/statistics have been obtained from sources believed reliable but are not necessarily complete and cannot be guaranteed. The information contained in client monthly account statements and confirmations reflects all transactions, and as such supersedes all other reports for financial and tax purposes. This report does not supersede or replace your monthly Client Statement. Daily Performance
Beginning January 1, 2005 (former Smith Barney accounts) and July 1, 2011 (former Morgan Stanley accounts), portfolio performance is calculated using a daily valuation methodology, with contributions and withdrawals to the portfolio reflected as of days they were actually made. Portfolio performance for earlier periods reflects various methodologies. Different calculation methods may result in portfolio performance figures that vary from those shown above.

Account Primary Index

Custom Blended Index
BC Gov/Cr 1-3 Yr: The Barclays 1-3 Year Government/Credit Bond Index contains bonds that are investment grade with maturities between one and three years.

90-Day T-Bills: The 90-Day Treasury Bill is a short-term obligation issued by the United States government. T-bills are purchased at a discount to the full face value, and the investor receives the full value when they mature. The difference of discount is the interest earned. T-bills are issued in denominations of $10,000 auction and $1,000 increments thereafter.

BC Tsy: This BC U.S. Treasury index is the U.S. Treasury component of the U.S. Government index. This index consists of public obligations of the U.S. Treasury with a remaining maturity of one year or more. Exclusions include: Treasury bills are excluded (because of maturity constraint); Certain special issues, such as flower bonds, targeted investor notes (TINs), and state and local government series (SLGs) bonds are excluded; Coupon issues that have been stripped are excluded in the index based on the underlying coupon issue rather than in stripped form. Thus STRIPS are excluded from the index because their inclusion would result in double counting. However, for investors with significant holdings of STRIPS, customized benchmarks are available that include STRIPS and a corresponding decreased weighting of coupon issues; Treasuries not included in the Aggregate Index, such as bills, coupons, and bellwethers, can be found in the index group Other Government on the Index Map; As of December 31, 1997, Treasure Inflation-Protection Securities (TIPS) have been removed from the Aggregate Index. The Tips index is now a component of the Global Real index group.
Alpha
Alpha is the value added by active management of the portfolio's assets, given the risk of that portfolio. In other words, alpha is equal to the incremental return earned by the manager when the market is flat or stationary. An alpha of zero indicates that the manager earned the exact return dictated by the level of market risk (i.e., beta) of the portfolio. A positive alpha indicates that the manager has earned, on average, more than the portfolio's level of market risk would have dictated. A negative alpha indicates that the manager has earned, on average, less than the portfolio's level of market risk would have dictated. Alpha is the Y-intercept of the least squares regression line.

Beta
Beta is the systematic risk of the portfolio. Measured by the slope of the least squares regression, beta is the measure of portfolio risk which cannot be removed through diversification. Beta is also known as market risk. Beta is a statistical estimate of the average change in the portfolio's performance with a corresponding 1.0 percent change in the risk index. A beta of 1.0 indicates that the portfolio moves, on average, lock step with the risk index. A beta in excess of 1.0 indicates that the portfolio is highly sensitive to movements in the risk index. A beta of 1.5, for example, indicates that the portfolio tends to move 1.5 percent with every 1.0 percent movement in the risk index. A beta of less than 1.0 indicates that the portfolio is not as sensitive to movements in the risk index. A beta of 0.5, for example, indicates that the portfolio moves only 0.5 percent for every 1.0 percent movement in the risk index.

R-Squared
R-squared, or the coefficient of determination, measures the strength of the least squares regression relationship between the portfolio (the dependent variable) and the risk index (the independent variable). The statistic reveals the extent to which the variability in the dependent variable is due to the variability in the independent variable. As such, R-squared measures how well the portfolio returns move in tandem with the returns of the risk benchmark. Though it is true that the higher the R-squared the better, an R-squared of less than 0.9 (i.e., 90 percent), indicates that the total fund does not track closely with the risk benchmark. The strength of the R-squared statistic will reflect on the strength of alpha and beta. A weak R-squared, for example, would indicate that alpha and beta cannot be strictly interpreted.

Asset classifications and performance calculation methodologies can differ among the various supplemental performance reports available through us. For example, some reports calculate Time Weighted performance using a weighted or Modified Dietz approach while others use a daily approach. In addition, some reports may display Dollar Weighted Returns. These differences can generate meaningful dispersions in the performance numbers displayed on different reports.

Agenda Item 5.C

SUBJECT: Phase One Plan Contract Amendments

ACTION FOR CONSIDERATION:
Approval of this item will authorize staff to negotiate contracts with current contractors, and subcontractors working on the Directing Change Program, consistent with the Phase I Prioritized Program recommendations approved by the Executive Committee in April 2014, for amounts that in the aggregate do not exceed the approved budget and subject to availability of funds. Approval will also authorize execution of such contracts by President of the Board.

BACKGROUND AND STATUS:
Since 2011, CalMHSA member counties have worked together to implement Statewide Prevention and Early Intervention (PEI) programs to prevent suicides, reduce stigma and discrimination, and improve student mental health. The initial funding available for these programs was one-time and designated for a four year period ending June 30, 2014. The Board and Sustainability Task Force have worked to determine the process and means to sustain the CalMHSA PEI Statewide Projects, and in December 2013 voted to adopt a one year continuation of the programs from July 1, 2014 – June 30, 2015 (referred to as Phase I). In April 2014, at the CalMHSA Strategic Planning Meeting, the Executive Committee approved Phase I Prioritized Program recommendations by the Sustainability Task Force and Advisory Committee to be implemented based upon available funding.

In February 2014, the CalMHSA Board approved a Sustainability Funding Framework for the Phase I Plan. This framework includes seeking new funding from counties, one-time funds remaining from the initial PEI investment from counties (contingency, unobligated carry over, and interest) and other funding sources (e.g. match, private and State funds).

- In May 2014, the CalMHSA Finance Committee approved a recommendation to apply all unobligated carry over ($5.7 million), interest earnings ($3.1 million) and new funding from counties to FY 14-15 and hold contingency funds for future years.
- To date, letters of acknowledgement totaling about $5.5 million were received from 35 counties. The letters serve as notice of present objectives and are non-binding; counties must comply with state and local policies before providing such funding.

The allocation of available program funding by initiative is shown below.

The Procurement Policy generally requires that procurement of goods or services over $5,000 be by a competitive selection process, but there are exceptions for situations where the vendor’s prior experience is vital, where the contractor has a unique ability to provide services within the relevant timeframe, and where the existing services were procured through a competitive process and who is willing to provide additional services on the same terms as before and where a new process is unlikely to provide significant benefit to CalMHSA.

The existing contractors were selected through a competitive process and have offered to continue performing similar services on similar terms. Staff proposes to extend contracts only to those contractors whose performance has been satisfactory. CalMHSA staff also seeks authority to contract directly with subcontractors of AdEase for continuation of work they currently perform on the Directing Change Program if it would create administrative efficiencies and be more cost effective. Conducting a new selection process would take significant staff time and effort, and appears unlikely to result in any benefit to CalMHSA or the selection of different contractors, in part because other contractors would be unlikely to be able to maintain continuity with ongoing programs. Counsel has reviewed this justification and believes it complies with Section 7 of the Procurement Policy.

SUBJECT: Department of State Hospitals Update

ACTION FOR CONSIDERATION:
None, information only.

BACKGROUND AND STATUS:
2013–2014 MOU—has been distributed to all participating members for Board of Supervisor (BOS) approval and signature.

Participation Agreements—have been distributed to all participating members for review and approval. Several counties have indicated they are in various stages of completion.

Next Steps:--move to end

The State Hospital Bed Work Group met on January 30th to discuss the following next steps:

SHORT TERM— 2014-15 Completion

a. Complete negotiation for 2014–15
b. Prepare a Request for Information (RFI) for Opportunities
c. Pursue WIC 17601 election with Department of Finance (DOF)—ongoing discussions
d. Pursue State Hospital Medicare reimbursement with DOF — on going discussions with DOF
e. Contract Management (Compliance/Conflict Resolution w/terms of MOU)

MID-TERM—start in 2014-15

a. Development of Best Practices and a Training and Curriculum tool that could be shared with all counties for their use.
b. Database (need to balance this with what DSH Portal now has populated)
i. Creation based on benefit—as alternative considered control and custody of joint data will be critical

ii. Bed usage—type, length of stay, hospital, bed rate(s), age, gender, race, demographics, internal transition of levels of care

iii. Conservatorship Status, Axis, Co-occurring, Recidivism, Level of Risk, Integration

iv. Records of services

v. Repository and hub for information sharing

**Request for Interest (RFI)** — A draft RFI has been developed for initial review of the SHB Workgroup. Upon final review and input, it will be distributed to counties for additional input.

**Summary of Recent Meeting(s):**

**The Department of State Hospitals (DSH)** — The last meeting with DSH was held on February 26, 2014, where they indicated moving forward with issuing trailer bill language to allow for billing counties for beds used vs. a commitment, interest in blended rate, negotiating a lower rate, and changes to FY14-15 MOU.

**Department of Finance (DOF)** — Two meetings have taken place with DOF where they were collaborative and willing to address our two fiscal long running issues, 17601 annual election and third-party, as related to DSH. As it relates to 17601, we asked for clarity on the statute and their and State Controller Office (SCO) interpretation. The third-party pay, they have indicated not having the necessary staff to file claims for Medicare. Of the ones they filed that are disallowed, not enough staff to follow up and re-submit. They collected $3.8 million last year in general funds, of which 8% is county money.

**Senator Darrell Steinberg’s Office Staff** — CalMHSA staff has met three times with Darby Kernan, Policy Consultant, with one meeting that included Andrea Margolis, Assembly Budget Committee and Julie Salley-Gray, Senate Budget committee. These discussions consisted of DSH’s proposed trailer bill language, rate negotiations, 17601 annual election, and third-party pay.

**County Counsels Association of California** - Doug Alliston, CalMHSA Legal Counsel, has been in continued discussions with Jennifer Henning, Executive Director, County Counsels Association of California, in an effort to obtain all County Counsels input documents such as MOUs and RFI.

**Summary of meetings** — Given the number of meetings staff has had with DOF, it lead them to raise questions with both DSH and SCO as to current process and statutes. As such,
DSH requested the meeting of May 1, 2014 be cancelled to allow the department time to present some clarity on the statute to the Workgroup. Therefore, the meeting was rescheduled for June 10, 2014, which will include DSH, SCO and DOF. Given most of the Workgroup’s concerns with the FY 14-15 MOU are fiscally related, DSH determined it made sense to move away from perusing trailer bill language and would work with both SCO and DOF to offer the counties some payment options.

**Next Workgroup Meeting(s):**
The next workgroup meeting is to be scheduled immediately following the June 10, 2014 DSH meeting.

SUBJECT: Short-Doyle Modernization

ACTION FOR CONSIDERATION:
None, information only.

BACKGROUND:
The Department of Health Care Services (DHCS) has indicated the need to explore options to transition from Short-Doyle 2 to a new billing system. In response, the CMHDA Financial Services and Information Technology (IT) Committee members and staff proposed a migration from the state-operated Short-Doyle 2 system to HIPAA-compliant, county-based encounter data systems that use certified vendors/systems to collect and store encounter information in a HIPAA-compliant format locally. This solution is intended to simplify the federal reimbursement process for the state and counties, and allow counties and their vendors to fully implement the federal information coding and exchange requirements. This effort, which has been referred to as “Short Doyle 3” or “Short Doyle Quality Improvement” is now being referred to as “Short Doyle Modernization” to reflect the longer term goals of the project, such as state and county collaboration on reaching Medicaid Information Technology Architecture (MITA) maturity goals.

Counties have taken action on this topic through both CMHDA and CalMHSA: At the May 9, 2013 CMHDA All Directors Meeting, members voted to approve the IT Committee’s CMHDA/DHCS Short-Doyle 3 Feasibility Study Partnership Proposal. At the July 25, 2013 CalMHSA Executive Committee Meeting, staff was authorized to work with CMHDA and DHCS on this project. At the August 15, 2013 CalMHSA Board Meeting, the allocation methodology outlined in MHSD Information Notice 13-15 was approved as the methodology to be used in determining each county’s share of the estimated $300,000 cost for these quality improvement efforts. CalMHSA invoiced counties for their estimated share of cost, should they wish to participate. Financial participation is not mandatory; however, if full participation is not achieved, counties may need to increase their level of funding. Staff calculated a possible range for the share of cost.

To date, 41 counties have contributed to fund this modernization effort. An additional 8 counties have expressed that they intend to contribute and are working through their local approval process (Alameda, El Dorado, Humboldt, Los Angeles, Orange, Santa Barbara, Santa Clara, and Solano). Three counties have elected to opt out (Lassen, Mariposa, Tri-City) and the status of the remaining 7 counties is unknown (Alpine, Amador, Kings, Mendocino, Plumas, Santa Cruz, Sierra).
CMHDA and CalMHSA staff are available to discuss any questions or concerns regarding this effort. Please contact Sarah Brichler if you have questions or are in need of additional supporting documents for your local approval process (sarah.brichler@calmhsa.org, 602-501-8696).

**STATUS:**
Beginning in October 2013, Governance Council meetings have been convened with leadership from DHCS and counties. These meetings are intended to allow the parties involved to articulate goals, outline state and federal billing requirements, and obtain consensus on the direction of the study. The goal of the Governance Council meetings is to reach consensus on the direction of the claims system modernization efforts. Currently, CMHDA, CalMHSA and DHCS are working together to develop a detailed implementation plan for short and long term solutions to Short Doyle 2. This plan is intended to include:

- Short term adjustments to Short Doyle 2 that support the continued operation and processing of claims in anticipation of a longer term transition to a system that advances Medicaid Information Technology Architecture (MITA) maturity goals.
  - Counties were recently asked to complete a survey of their priority short term adjustments to Short Doyle 2. Initial survey results from 44 respondents indicate that the following system enhancements are the top priority for counties:
    - Improve reconciliation between 837’s (claims) and 835’s (remittance advice).
    - Eliminate scenarios where an entire claim file is rejected.
    - In addition, county responses indicated that two areas for improvement are expected to occur: fix current, outstanding bugs in system and improve communications between DHCS and the counties.

Concrete suggestions for improvement were provided by counties through the survey and next steps are under development. The proposed next steps will be vetted through the governance structure, ensuring that available state and counties resources are leveraged.

- Development of a pilot program to test solutions within sample counties prior to implementing system wide changes in the Medi-Cal claims reimbursement and cost settlement systems.

- Longer term solutions, such as participation in the federally required Medicaid Information Technology Architecture (MITA) process led by DHCS to ensure that
behavioral healthcare and county specific needs are documented, and technical requirements captured.

- CMHDA and CalMHSA staff recently met with DHCS leadership related to the policy side of MITA and efforts to enhance MITA maturity. CMHDA and CalMHSA staff expressed the counties’ interest to be involved in behavioral health related MITA efforts.

**FISCAL IMPACT:**
County resources are being gathered in anticipation of agreements that would improve information technology exchange and financial reimbursement structure. The total cost of implementing these system improvements is estimated to be up to $300,000. It is anticipated that CalMHSA will assume a substantial administrative and fiscal role in:

- Contracting with counties to participate in and fund these efforts,
- Planning and development of a proposed project management plan and any services needing procurement along with Steering Committee partners including DHCS and CMHDA,
- Procuring, executing and managing any needed contracts to implement the project management plan with Steering Committee input, and,
- Obtaining the advice of legal counsel in County participation agreements, Memorandums of Understanding with partners, procurement and contract documents.

As such, CalMHSA staff time, legal counsel and administrative expenses would need to be allocated across participating counties and align with the indirect and indirect cost guidelines determined by the CalMHSA Finance Committee. Any unused funds would be allocated to future program expenses.

County Participation as of 5/12/2014

Please note: this is our best estimate of county participation to date. Please contact Sarah Brichler (sarah.brichler@calmhsa.org or 602-501-8696) to update any of this information.

The allocation for the share of cost was determined by counties at the August 2013 CalMHSA Board meeting. The initial cost estimates assume full participation by counties. If full participation is not achieved, counties may need to increase their level of funding.

Paid invoices received to date: $148,332.46

Counties that have indicated plans to participate: $143,435.19

- Counties (8): Alameda, El Dorado, Humboldt, Los Angeles, Orange, Santa Barbara, Santa Clara, Solano

Counties that indicated that they wish to opt out: $2,459.02

- Counties (3): Lassen, Mariposa, Tri-City

Unknown status: $5,698.86

- Counties (7): Alpine, Amador, Kings, Mendocino, Plumas, Santa Cruz, Sierra
Estimated upper limit of the share of cost as of 10/8/13:

Counties have requested that a range of the share of cost be calculated so that they know the upper limits of the financial obligation to participate. The upper limit of the share of cost estimate is based on the following assumptions, and on county contributions as of October 2013:

- Up to $300k total is anticipated to be needed to fund the study.
- Of those counties that are unknown, one possible scenario is that half of them decide not to participate ($38,126.85). This amount plus the counties that wish to opt out ($1,319.12) is the amount that would need to made up for with participating counties: $39,445.97.
- If this amount ($39,445.97) were allocated over the counties that have paid, the counties that anticipate paying and half of the counties that are currently unknown, it would represent a cost increase of about 17% from the initial invoice sent to counties.

Attached is a table that includes both the initial amount for which counties were invoiced and the estimated maximum cost under this scenario.

1. Originally, the Contingency Reserve was calculated as 9% of the Approved Plan. It is the intent of CalMHSA to maximize the delivery of services. In this Plan Update, $9,662,072 of this reserve will now be utilized for program activities.

2. The maximum allocation permitted by DMH for Indirect Administration services is 15%. Included in this 15% is the requirement to provide evaluation of programs.

3. These dollars differ slightly from those shared during the First Work Plan Amendment; this change is due to the program/direct percentage being calculated as 71%, based on the approved plan.

4. Changes in CalMHSA membership and the assignment of funds by counties and cities resulted in an additional $1,698,675 for program funds.

5. Based on the FY 12-13 CalMHSA Budget approved by the CalMHSA Board on June 14, 2012, planning dollars ($2,869,658) were moved to fund program/direct activities. The new overall percentage of funds dedicated to planning is 3.0%.

6. Contingency reserve dollars ($9,662,072) were moved to fund program/direct activities. The new overall percentage of funds dedicated to the contingency reserve is 2.0%.

7. The total increase in program funds is $14,230,405 (Shift planning and contingency reserve: $12,531,730, plus changes in CalMHSA membership: $1,698,675).

8. $5 million transferred to PEI Statewide Program from General and Administrative funds based on actual projections of General and Administrative expenditures through June 30, 2015.

9. San Benito County contributed PEI funds to CalMHSA on October 29, 2013 - $221,600.

SUBJECT: George Hills Company Contract with CalMHSA

ACTION FOR CONSIDERATION:
Finance Committee recommends approval of the Third Amendment to the George Hills Contract, to include additional funding per fiscal year, for PEI sustainability, which would be effective from July 1, 2014 to June 30, 2017.

BACKGROUND AND STATUS:
CalMHSA entered into contract originally on October 28, 2009. That contract was later amended upon the signing of the contract with, then Department of Mental Health on April 15, 2010. Subsequently the Finance Committee was asked to continually review the performance of the contract and the financial terms with George Hills Company, Incorporated (GHC) and report to the board. Subsequently a Task Force of the Finance Committee was formed to review and evaluate the GHC contract for purposes of contract extension, as the current contract is due to expire June 30, 2014.

At the June 13, 2013 Board of Directors Meeting, Mr. Gruendl gave an update on the Finance Committee Task Force’s review of the George Hills Company contract. The current contract ends on June 30, 2014. The Task Force had two recommendations which would be considered for contract extension and action at a later date. The first would be based on CalMHSA administrative/indirect costs staying below 7.5% (they were 4.1% for FY 2013-2014). The second would be based on performance. Since then GHC was asked to present a proposed extension of contract terms.

At the Nov 25, 2013 Finance Committee meeting John Chaquica presented the terms of contract extension for both the run out of the operations of the JPA, through close of all contracts, and a trigger in the event new funds are provided for Statewide PEI. The extension is presented based on a three-year basis which would be the time necessary to close operations. In the event new funding is derived an annual amount is proposed based on the anticipated number of projects under management. Additionally the fee is inclusive of any and all future planning and development and is appended by projects other than Statewide Prevention and Early Intervention as provided through member Participation Agreements.

At the December 13, 2013 Board of Directors Meeting, action was taken to approve the amended contract with George Hills Company, with the caveat that column 5, Sustainability Planning, would be removed. The members confirmed the contract shall be renegotiated at a later date; once more information was available relative to Sustainability funding.

CalMHSA’s Procurement Policy generally requires competitive selection processes but includes exceptions recognizing that noncompetitive contracting may better serve
CalMHSA in some cases. The Procurement Policy lists factors that may justify sole source contracting, including the following: “Retaining professional services, such as but not limited to, an attorney, auditor, manager or administrator, to maintain expertise, continuity, consistency and knowledge of CalMHSA.” (Underlining added.) In this case the extension of the GHC contract will allow continuation of the statewide PEI programs without disruption. GHC’s involvement in CalMHSA’s creation and operation of these programs has been instrumental and its knowledge and experience could not easily be replaced. This includes retention of essential staff, relationships with stakeholders and program partners, and connections with key people at relevant state agencies. In addition, the Finance Committee has found the cost of GHC’s services as a percentage of program dollars has been well within standards.

The Procurement Policy requires that counsel must indicate whether the written justification for sole source procurement complies with the Policy. Counsel concludes that the stated justification is in compliance with the Policy.

**RECOMMENDATION:**
Finance Committee recommends approval of the Third Amendment to the George Hills Contract, to include additional funding per fiscal year, for PEI sustainability, which would be effective from July 1, 2014 to June 30, 2017.

**TYPE OF VOTE REQUIRED:**
Majority vote of the Board of Directors.

Included in this amount are the costs to manage the JPA as an entity, program management, and planning and development for projects requested by the Board. SUBJECT: Report from CalMHSA Search Committee

ACTION FOR CONSIDERATION:

Approval of the restructuring plan, including recruitment of new Executive Director, within the budget amounts and timelines established. Search and recommendation shall be performed by the Search Committee with final approval by the CalMHSA Board.

BACKGROUND AND STATUS:

At the April 11, 2014 Strategic Planning Session meeting, the CalMHSA Board of Directors discussed the proposed restructure that included hiring a new Executive Director with the current Executive Director, John Chaquica, stepping down to Director of Operations (DOO). After much discussion the Board supported the concept, but requested more discussion regarding budget impact, qualifications and experience of new hire. As a result, the Board directed a Search Committee be assembled to further review the roles and responsibilities, as well as fiscal impact and process.

The Search Committee met two times to review and discuss the proposed restructure plan, to include a job description, budget and legal status of Executive Director (ED). The following documents were reviewed during these discussions:

1. Strategic Planning Session proposal and notes
2. Definition of Roles and Reporting Structure, including Budget narrative
3. Job Description—Executive Director
4. Job Description—Director of Operations
5. Current Organization Structure
6. Staffing Matrix
7. Sustainability Funding Goals
8. George Hills Contract

Search Committee Conclusion:

1. To direct staff to broaden the job description so it would include experience and skills in the development of a strategic plan for fund development and execution of the plan. This shall be balanced with knowledge of the mental health field and county government. The revised job description is attached.

2. The budget impact shall be a range of $150,000 to $250,000 for a compensation package (salary and benefits) and provision for indirect costs, for 1 FTE new ED. With this restructure and a .5 FTE shall be added for additional support, estimated at $40,000, for a
maximum budget impact on expenditures of $300,000. There are sufficient funds that provide for the financial impact of this additional cost, which has been included in the general and administrative expenditure of the Sustainability Funding Goals and CalMHSA proposed budget.

This amount will be offset by a reduction of the current allocated salary cost of the current ED based on the proposal and the plan to reduce the level of effort necessary to carry out his new role of DOO. The range of estimated reduction is $20,000 to $40,000, but will be based on actuals, and therefore could increase. This will be a reduction to the amount payable under the GHC contract at the time of inception. This reduction and base salary was reviewed by the Committee and was deemed appropriate.

3. The legal status of the new ED was discussed. Upon the advice of legal counsel, it was determined it would not be in the JPA's best interest to have an employee or a direct contract for this position. If however, the new ED was an employee of another legal entity, such as a Limited Liability Company, that scenario should be considered. The Committee decided that, while acknowledging the perception concerns raised, having the new ED be a GHC employee who only worked on CalMHSA matters would be the most efficient and cost effective approach.

**FISCAL IMPACT:**

The budget impact is estimated to be a maximum net increase of annual expenditures in the amount of $280,000. This shall be funded by new funding sources in 2014-15, and is expected the new ED shall, over time, generate sufficient funding to sustain this position and grow the program operations to meet the goals and objectives of CalMHSA.

**RECOMMENDATION:**

Approval of the restructuring plan, including recruitment of new Executive Director, within the budget amounts and timelines established. Search and recommendation shall be performed by the Search Committee with final approval by the CalMHSA Board.

**TYPE OF VOTE REQUIRED:**

Majority vote of the Board of Directors

This memo is intended to outline the new management structure and positions being recommended to take CalMHSA to the next level.

**Restructured Organization**

  - (Pres., VP, Sec, Treas.)
- **Executive Director**

- **Legal Services**
- **Existing and New JPA Projects**
  - (Non-PEI)

**Definition of Roles and Reporting Structure**

**Executive Director** – The Executive Director (ED) reports directly to the Board of Directors/Executive Committee as outlined in the JPA Bylaws. The ED directly supervises the Program Services & Support team.

The ED is the face of the JPA providing high-level leadership, implementing the strategic plan, and oversight to the CalMHSA program team. This includes representing the JPA in national (federal), state, and local policy discussion and working closely with CalMHSA partners. The ED attends all meetings with legislature and staff, and with DHCS, CMHDA, CiMH and other pertinent partners. (See Executive Director Job Description below)
California Mental Health Services Authority

The ED has knowledge of general county mental and behavioral health areas and specifically the California Mental Health Services Act and laws and regulations. The candidate should have experience and skills in the development of a strategic plan for fund development and execution of such plan.

Critical to this new role will be the responsibility of identifying, raising, and managing new funding sources. With one-time assigned funds soon to be fully spent, sustaining program efforts will be through new and different funding sources. Therefore, a portion of the position will be spent in accomplishing funding objectives, such as:

1. The ED will lead the advocacy of the JPA activities for the pursuit of new revenue sources, often times in conjunction with CMHDA. This will include new funding from the state in areas outside of MHSA (e.g., education). Additionally, the ED will lead the efforts for introduction and solicitation of endowment and foundational funds.
2. The ED will work closely with the Program Director and the administration of current and future statewide PEI programs.

Director of Operations – The Director of Operations (DOO), John Chaquica, will report directly to the Executive Director and Executive Committee. The DOO directly supervises the JPA Management, Fiscal & Administrative Services team. The DOO oversees planning, direction, and control of all policies and procedures and execution of projects and programs. Additionally, he shall continue involvement in other projects, for example Department of State Hospitals. (See Director of Operations Job Description below.)

Examples of this are:

1. The DOO will ensure CalMHSA as a government entity shall operate in accordance with JPA Agreement, Bylaws, Government Code, and other applicable laws.
2. The DOO will manage the day-to-day activities to ensure proper resources are in place, systems are appropriate to achieve results, and will monitor and hold accountable all personnel to performance standards.
3. The DOO will oversee all budget, financial reports, and contracts.
4. The DOO will ensure all contract provisions are complied with and take appropriate action in protecting CalMHSA members through the contractual relationships.

Budget Narrative

The new ED position is estimated to have a total direct compensation package (salary and benefits) ranging from $150,000 to $250,000, including additional indirect costs. In addition this new position will require a least a .5 FTE in an approximate amount of $40,000.00. This position shall be funded by new funding sources in 2014-15, and is expected the new ED shall, over time, generate sufficient funding to sustain this position and grow the program operations to meet the goals and objectives of CalMHSA.

The DOO position, while new from a personnel/budget standpoint, is currently included in the budget. However, with the new ED position, the GHC contract will be reduced for the reduction of effort. This range is projected to be $20,000 to $40,000.

What is unknown and we are unable to project at this time is what additional resources may be needed with the addition of the new ED.

ACTION FOR CONSIDERATION
None, information only.

BACKGROUND AND STATUS:
The Spring Quarter of 2014 has been a productive and impactful one for CalMHSA program partners. Evidence of their impact is emerging and CalMHSA program staff is using different vehicles to share this information with counties and their constituencies. Below are some key resources that provide information on impact to date.

Independent Evaluation from the RAND Corporation – Eight More Fact Sheets on Emerging Evaluation Findings:

Beginning now and continuing throughout 2015, RAND will be producing brief fact sheets to share and disseminate emerging evaluation findings related to the PEI statewide projects. New releases for May are listed below and can be found both at the RAND website at: http://www.rand.org/health/projects/calmhsa/publications.html and the CalMHSA website evaluation page at: http://calmhsa.org/programs/evaluation.

“Know the Signs” Campaign Outcomes Summary Report Now Available:

Know the Signs is a statewide suicide prevention social marketing campaign with the overarching goal to increase California’s capacity to prevent suicide by encouraging individuals to know the signs, find the words to talk to someone they are concerned about, and to reach out to resources. An executive summary of outcomes to date is now available which reports on media impact, performance and satisfaction of county technical assistance efforts, the Directing Change Program, and the process and deliverables available under the culturally-adaptation program. Please see a PDF copy of the executive summary here; and look for a full report in the mail which will include information about the specific impact to date in your county.

Training, Technical Assistance and Capacity Building (TTACB)

Several counties partnered with CalMHSA to fund the RAND/SRI Training, Technical Assistance and Capacity Building (TTACB) program through June 30, 2014 in order to receive technical assistance on Prevention and Early Intervention (PEI) evaluation strategies, and participate in regional evaluation activities. By working with RAND/SRI, information and resources from the Statewide PEI Evaluation were leveraged and applied to county level PEI evaluation efforts. The following quarterly technical assistance opportunities occurred in Fiscal Year 2013-14 and were made available to all counties, CalMHSA program partners and other community partners (as space allowed):
• Describing County PEI Programs; Using Standardized Data Collection and Analysis Tools to Collect and Present Data Across Programs (Webinar)
• Advanced Getting to Outcomes – Program Quality Improvement (Webinar)
• County Data Systems (Facilitated In-Person Work Group)
• Evaluation Approaches for Different Kinds of PEI Programs (In-Person Work Group)
  o At the latest work groups, which were held in April and May 2014 in three different locations statewide, 84 individuals from 31 counties participated.

Archived webinars and work group materials from the current and prior year are available on the CalMHSA website: [http://calmhsa.org/programs/ttacb/](http://calmhsa.org/programs/ttacb/)

Please contact CalMHSA (Sarah Brichler at 916-859-4827 or sarah.brichler@calmhsa.org) or RAND (Kaci Williams at (310) 451-7051, extension 7245 or kaci@rand.org) with any questions.

**Staff Updates**

CalMHSA Program Manager, Sarah Brichler, is pregnant and expecting her 1st child in June. May 2014 News to Use
Empowering Youth to be Change Makers

The culmination of Mental Health Matters Day was the Directing Change Student Video Contest Awards Ceremony. State Superintendent of Public Instruction Tom Torlakson and Director Bradley Buecker and Actor Max Adler from Fox’s hit series “Glee” were featured speakers (pictured at right with students from Analy High School in Sebastopol).

432 submissions, representing 996 students from 31 counties were received in the contest that empowers California’s youth to tackle the public health issues of suicide and stigma by producing public service announcements. View the full list of winners and their videos at www.directingchange.org.

Each Mind Matters Celebrated Across the State

The Each Mind Matters message was not only heard loudly in Sacramento on May 13th, 2014, it was heard statewide all month long. Numerous counties celebrated May is Mental Health Month and highlighted the growing Each Mind Matters movement by distributing materials about Mental Health Matters Day and Directing Change.

21 Events were held in Sonoma County, ranging from trainings in Question, Persuade, Refer, to comedy shows and brown bag lunches for teachers.

31 Different ways to promote mental health awareness and overall well-being were highlighted by San Bernardino County -- one for each day in May.

10 Events were held throughout May by Tri-City Mental Health Services in Pomona, as well as posting a mental health tip or quote every day of the month on their Facebook page.

Half of all mental health challenges begin by age 14 and three quarters appear before age 24. The California Mental Health Services Authority’s (CalMHSA) Prevention and Early Intervention programs strategically target young Californians, connecting them with preventative services and setting them on a lifetime path of mental wellness.

**A New Generation of Mental Health Leaders**

Emerging mental health advocates will be among the thousands of individuals and organizations who will stand together in a unified call for inclusion and acceptance for people living with mental health challenges on Mental Health Matters Day, to be held May 13, 2014 at the State Capitol.

As new leaders pick up the torch that will lead Each Mind Matters into the future, the events will honor the pioneers of California’s mental health movement, including Sally Zinman and Jay Mahler (pictured at right with CalMHSA Senior Program Manager Stephanie Welch).

**Empowering Youth to be Change Makers**

This year, 422 submissions, representing 31 California counties were received in the contest that empowers California’s youth to tackle the public health issues of suicide and stigma by producing public service announcements that educate and encourage their peers to take action. "I think that having a film contest that tackles difficult topics like mental health and suicide is a wonderful thing because it opens students up to having a conversation about topics which are often swept under the rug.” - Directing Change Student Video Contest Participant from Canyon High School
Starting a New Conversation

18,000 students have viewed in-school performances and 45,436 students have been engaged online through “Walk in Our Shoes,” a positive way to engage young people in a conversation about our differences, with in-school theatrical performances and an engaging interactive website.

“I identify with [the Walk in Our Shoes performer] because I have ADHD, and it doesn’t matter what mental health challenge you have because everyone is unique in their own way and it just adds to who you are.” - Walk in Our Shoes Theatrical Performance Attendee Student in Modesto

Sweeping New Educational Standards

In 2013, the California Commission on Teacher Credentialing adopted new mental health curriculum requirements for school administrators that will build leadership capacity to improve student mental health.

During the 2012/2013 school year 351 school staff were trained through the California Department of Education’s Training Educators Through Recognition and Identification Strategies (TETRIS) Eliminating Barriers to Learning program at 101 different schools. TETRIS provides urgently needed, high-quality professional development for school and district-level staff in order to train and support California’s schools in recognizing children’s mental health disorders and related barriers to school success.

American college students are experiencing mental health challenges with greater frequency than ever before. In 2012, the American College Health Association-National College Health Assessment found that over 30 percent of college students reported feeling “so depressed that it was difficult to function” at some time in the past year.

Recognizing this urgent need, California’s higher education institutions, the University of California (UC), California State University (CSU), and California Community Colleges (CCC) have made student mental health one of their top priorities.

Through the voter approved Mental Health Services Act and the California Mental Health Services Authority (CalMHSA), California’s higher education institutions are increasing direct mental health services to students, providing training to faculty and staff, and reducing the stigma of mental illness.

**Did you Know...?**

**Leading epidemiologists say we can’t afford not to take a prevention approach to mental health.** Focusing only on mental health crisis misses the opportunity to prevent more people in our communities from reaching the crisis point and costs more in the long run. Prevention in the mental health field is a public health priority, just as working to prevent heart disease must happen at the same time we treat people experiencing heart attacks.

**Half of all mental health challenges begin by age 14 and three-quarters appear before age 24.** Investing in our young minds is an opportunity to improve mental health over a generation. CalMHSA’s PEI programs strategically target young people to connect them with preventative services and set them on a lifetime path of mental wellness.

**California voters supported transforming California’s mental health system with a prevention approach.** Voters passed Prop. 63 (the Mental Health Services Act) in 2004, dedicating resources to keep individuals healthy so they never reach the crisis point of our jails, hospitals, or homelessness. At the same time this investment saves lives, it reduces the strain on community hospitals, jails, and public safety resources.
Helping Underserved Student Populations

An estimated 2.2 million veterans reside in California, and more than 44,000 utilize education benefits at a California Community College. Fifteen California Community College campuses have hosted “Welcome Home” trainings attended by over 600 faculty and staff members to address the needs of student veterans.

“As the daughter of a World War II Veteran, [I found the] California Community Colleges Student Mental Health Program’s training curriculum timely, insightful and informative. The workshop presenters were top-rate and [I] was most appreciative and enlightened by the information and resources presented.”
- Cabrillo Community College Veterans Training attendee

The Student Mental Health Initiative also takes special care to promote self sufficiency for Transition-Aged Foster Youth aging out of California’s foster care system. California Community Colleges’ Healthy Transitions Curriculum has trained 146 students to help them realize their own strengths and abilities, connecting them to local resources and services, and empower them to reach a higher state of health and well-being.

A hostile school climate is detrimental to LGBTQ student mental health, and since 2000, the number of college students who identify as LGBTQ has roughly doubled. To create a more supportive environment for LGBTQ students, the California Community Colleges have trained 980 students and faculty/staff members through online suicide prevention trainings that teach understanding and offer assistance and referrals to support services on campus when students exhibit signs of distress.

For more information about any of the programs described above, contact Jamie Sepulveda at Jamie.Sepulveda@calmhsa.org.

In 2008, state strategic plans were developed for suicide prevention, stigma and discrimination reduction and student mental health. CalMHSA, a Joint Powers Authority, was created by counties in 2009 to implement the PEI Statewide projects efficiently and effectively. These are just a few program highlights; for more information please visit: www.calmhsa.org.

CalMHSA Partnerships Create Sweeping Systemwide Resources

42,954 faculty and staff members, at ten UC campuses, have received a “Red Folder,” which serves as a quick reference guide to mental health resources for distressed students. The customized-by-campus folders identify common signs of student distress and direct faculty or staff through protocol to approach a distressed student, connect that student with the appropriate resource, or make emergency contact.

Every student in the California State University System receives “Student Health 101,” an online magazine that contains ways for students to anonymously research health and wellness issues that are most prevalent on campuses. The magazine also incorporates regional resources and tips for students.

Prevention and early intervention save lives and dollars by delivering help before a crisis when it’s most effective and less costly.
Creating Safe Communities

CalMHSA’s Prevention and Early Intervention Programs foster partnerships with public safety agencies and promote safe communities.

To date, CalMHSA’s partners have:

- Trained crisis responders so they are better equipped to respond with appropriate intervention when people experience mental health crisis.
- Worked to reduce violence toward people living with mental illness by breaking down stereotypes.
- Expanded resources to prevent people from winding up in the streets or in jail.
- Freed up public safety resources for important community priorities.

Did you Know...?

Leading epidemiologists say we can’t afford not to take a prevention approach to mental health. Improving Public Safety by Decreasing the Stigma of Mental Illness

Decades of disinvestment in mental health services has made our public safety systems mental health providers by default, and fueled misconceptions that violence is associated with mental illness. The fact is people with mental illness are far more likely to be victims of violence than to be perpetrators.

CalMHSA’s Stigma and Discrimination Reduction Partner Disability Rights California (DRC) partners with San Francisco Crisis Intervention Team officers to develop training curricula for law enforcement to appropriately manage crisis situations involving a person with mental illness. To date, more than 500 public safety partners across the state have been trained.
Creating Safe Campus Communities

While the incidence of violence on college campuses are rare, CalMHSA’s partnerships with the University of California (UC), the California State University and the California Community Colleges recognize the opportunity to identify mental health concerns among students in a difficult transition period and respond appropriately to crisis situations. Campuses across California have engaged with campus safety and local law enforcement agencies to develop crisis intervention strategies.

- Modesto Junior College is teaming up with local law enforcement to improve response to suicidal crisis on campus and has developed a Behavioral Intervention Team.

- The Los Angeles Harbor Consortium of six local colleges conducted a series of two-day violence prevention trainings that included representatives from 17 local colleges.

- UC Berkeley partnered with Alameda County public safety officials to conduct Mental Health Training for Police Dispatchers, where dispatchers from Oakland, Richmond, Bay Area Rapid Transit, and the City of Alameda attended to learn about mental health issues and crisis intervention.

- West Los Angeles College is working with the lead Sheriff on campus to design workshops for law enforcement personnel that will teach them how to effectively address students with apparent mental health conditions.

Phase Two: CalMHSA PEI Statewide Projects Plan Development

Update Report

By Karen Kurasaki
Steering Committee Update

Since the Interim Report to the CalMHSA Board of Directors at their April 11, 2014 Retreat, the Statewide PEI Phase 2 Steering Committee has met twice more – once on April 23, 2014 for two hours via GoToMeeting and again on May 28th, 2014 in-person in Sacramento for a full-day. The focus of both meetings was to distill the Steering Committee’s broad vision that touches on a wide range of activities down to a common denominator, in order to create a more simplified and effective message to the general public about what CalMHSA aims to sustain and accomplish through its continued PEI work. The primary focus of discussions at both of these meetings was on the fit and the value of using “Each Mind Matters” (EMM) as the umbrella concept under which resource tools, trainings, technical assistance and other suicide prevention and stigma and discrimination reduction outreach and educational products could be packaged using existing materials and tailored to meet the needs of various audiences. The Steering Committee discussion reflected overwhelming support for this idea to create simple and consistent messaging across the state, and to build on the initial investment in developing social marketing materials. Steering Committee members felt that the EMM umbrella had great potential to resonate with the “wellness movements” happening outside of mental health in other service sectors such as health care, public health, education, workplace/private sector, and for diverse populations across the life span.

Outreach Meetings with Prospective Partners

CalMHSA staff has begun to conduct outreach meetings to build new relationships with prospective partners in the Phase 2 Plan. The first of these outreach meetings was conducted on April 23, 2014, with representatives from the California Department of Public Health, Chronic Disease and Injury Prevention Division and Office of Health Equity. The second outreach meeting was conducted on May 19, 2014 with staff from the California Reducing Disparities Project within the Community and Education Development Unit in the Office of Health Equity. The main focus of both of these meetings has been informational, and to explore opportunities for possible future collaboration and to identify potential leverage points.
